# ROLL FORMING MACHINE

**GODSON** have 40 years of experience of machine tools manufacturing, such as Shearing Machine, Plate Bending Machine, Section Bending Machine and various type of Special Purpose Machines in various sizes

Now **GODSON** is introducing Cold Roll Forming Machine with advance technology, We have always fullfil the wishes of our valued customers & give entire satisfaction. Keeping in mind for the cost effectiveness, productivity needs & quality, Godson Roll Forming Machines are having following salient features inbuilt in the machine to provide world class Roll Forming solutions for their simple to critical Roll Forming job.

- Machine is built from Prime Material, the body & Structure are stress relieved.
- Robust design of heavy duty steel Plate Body.
- Heat Treated Alloy Rolls.
- Easy Replacement of Parts.
- Easy to operate & highly adaptable.
- Economical, Greater efficiency & longer life.

## APPLICATION FIELD OF MACHINE.

### 1. Electronics & Electric Industries.

Cable tray, MCB channels, Contector channels, other channels, Tub light Strips,

### 2. Fabrication & Construction Industries

Rolling Shutters Strips & fittings, Door & window frame sections, Slotted angle & channel, Z section, Purlin channels, corrugated Roofing sheets, False Ceiling & Wall Panel sections etc.

### 3. Steel Furniture Industries.

Drawer & Cabinet channels, Small Rolling Shutters Strips, Corrugated sheets.

### 4. Automobile Industries.

Sliding Door Section, car door frames, car seat mounting corrugated partition for truck body, Bicycle / Moped Reams & mudguard profiles, Bus bars & coach Building Profiles, Silencers tubes

### 5. Some other Fields.

Ship Containers manufacturers, Material handling equipments manufacturers, Textile machine components.

**Our first cantilever type Roll Forming machine manufactured in 1975**

## CAPACITY CHART

|                                    |        |    |                    |
|------------------------------------|--------|----|--------------------|
| Input Strip Width ranging from     | 10 mm  | to | 1500 MM            |
| Input Strip Thickness ranging from | 0.2 mm | to | 6 MM               |
| No. Of Stations                    | 4      | to | 24 Stations        |
| Motor HP ranging from              | 1 hp   | to | 40 hp              |
| Output Roll forming Speed          | 5      | to | 30 Meters / Minute |
| De-Coiler Capacity ranging from    | 1      | to | 5 tons.            |

## AUXILLIARY ATTACHMENTS :

- De-Coiler cum straightener for brake less strip forming
- Spring Winding for rolling shutter manufacturer.
- Punching unit for pre-pinching operation on to the strip before feeding.
- Inline Profile cutting device Shearing or Circular saw.

## NOTE :

- (1) All the capacity stated above are related to MILD STEEL of 42 kg./MM<sup>2</sup> (2) Capacities not mentioned above are available on request & demand.  
 (3) We reserve the right to modify the design, system, construction, dimension, weight, HP, Hydraulic Tonnage & any other specifications of our machine without any prior notice for better performance of machine.
